

Less than 1000 ppm¹ of lead in homogeneous materials within our parts, according to the EU RoHS 2002/95/EC Directive.

EU RoHS

Restricted Substance	RoHS MCV ² (ppm)
Cadmium (Cd)	100
Lead (Pb)	1000
Mercury (Hg)	1000
Hexavalent Chromium (Cr ⁺⁶)	1000
Polybrominated Biphenyls (PBBs)	1000
Polybrominated Diphenylethers (PBDEs)	1000

+

+

- 900 ppm max. chlorine
- 900 ppm max. bromine
- 1500 ppm max. total of chlorine + bromine
- 1000 ppm max. of antimony trioxide as a flame retardant in polymers
- 1000 ppm max. of red phosphorus as a flame retardant

+

+

+

- Less than 2% antimony in solder

Also compliant to Joint Industry Guide (JIG) 101 Level A

1. Not applicable to allowable exemptions within the EU RoHS directives.
2. MCV: Maximum concentration value.
